Objective

An objective of myself would be that I am a very hard-working, driven, and prestigious young lady who wants to reach my highest potential of achievement. I have been acknowledged for many of my achievements throughout my life of schooling and outside activities. I strive for excellence and perfection in the roles I take on as a future educator. Making mistakes and growing from them has molded me into becoming the young lady that I am today. I am peculiar about organization as well as, being trustworthy, honest, and flexible. Having a positive light shed on my name is the most important when accepting and applying for jobs. Overall, my hard-work and continuous battle to become better than I was yesterday is never over, there is always room for growth and improvement.
